

Features

- Provides Correct Ladder Positioning for Technicians
- Permanently Attaches to Poles Beneath C-RAN'S
- Multiple ways to Safely Mount Ladder Bracket
- Attachment Point for Safety Harness

U-TECK's 5G Pole Mounted Ladder Bracket Provides a Safe and Sturdy Ladder Rest onto Urban Utility Poles where Centralised-Radio Access Networks and Other Equipment are Mounted.

Using these 5G / C-RAN Pole Mounted Ladder Brackets means that there isn't a need for Bucket Trucks to be Dispatched for Routine Maintenance or for Quick Tasks thus Saving Time, Money, and Resources. 5G/ C-RAN Ladder Brackets are Permanently Mounted Beneath the C-RAN. Once installed, and the Ladder Correctly Deployed, the Cabinet can be Safely Opened, and Work Performed, providing a Safe and Comfortable Angle to Work.
